All-Languages who assisted us in the translation of the survey into French. CSPG Office Manager Tim Howard and GAC Office Manager Karen Johnston ensured that the survey was promoted each month in the two society e-newsletters, and provided assistance to us in other ways too numerous to mention. Thanks also to those others in their respective offices who provided technical assistance to the project. Finally, we would like to thank the many earth scientists who agreed to be interviewed and took the time to fill in the survey.
