VEILLE SCIENTIFIQUE

DE L'ORDRE

En exerçant une veille scientifique, l'Ordre observe les tendances et demeure à l'affût des résultats de la recherche en nutrition. L'Ordre encourage chaque membre à mener sa propre veille scientifique pour répondre à ses propres besoins informationnels. Nous espérons que cette section soit une valeur ajoutée à votre veille scientifique professionnelle!

CRITÈRES DE LA VEILLE

L'Ordre effectue une veille scientifique. Les critères de sélection et les sujets varient selon les besoins et les champs d'intérêt. Toutefois, les références retenues doivent provenir de sources scientifiques crédibles publiées au cours de la dernière année. Les revues de littérature et les méta-analyses sont privilégiées.

NOTEZ BIEN

Les articles énumérés ci-après n'ont pas nécessairement fait l'objet d'une analyse critique approfondie et ne sont diffusés qu'à titre de résultats de veille scientifique. Aussi, votre jugement professionnel et votre sens critique sont de mise pour juger de la valeur de ces études dans votre pratique.

APPEL À TOUS

Pour la section consacrée aux publications scientifiques rédigées par une membre de l'Ordre, nous comptons sur vous pour nous faire connaître vos publications. Vous pouvez les acheminer par courriel à veille@opdq.org en mentionnant dans l'objet « Publications membres ».
