## *Preface/Préface*

This is the seventh annual bibliography to appear in the October issue of the *Urban History Review*. It was originally organized to follow the format of *Canada's Urban Past: A Bibliography to 1980 and Guide to Canadian Urban Studies* by Alan F.J. Artibise and Gilbert A. Stelter (Vancouver: University of British Columbia Press, 1981).

This bibliography is limited to about 750 records, and must therefore be selective. We have concentrated on the larger cities and towns, and exclude most ephemeral or local history items. Particular efforts have been made to trace these in Canadian urban history and urban studies.

Canadian periodicals, bibliographies and indexes are searched systematically for items of potential interest to Canadian urban history. However, we still need help from our readers, particularly with theses, but also with reports and discussion papers, local history items and articles and books on Canadian urban subjects which are published outside Canada. References for inclusion in the 1988 bibliography may be submitted to the Bibliography Editor until May 31, 1988.

We thank the following readers for contributing references to the 1987 bibliography: Gerald Bloomfield, Fernand Harvey (IQRC publications), INRS-Urbanisation staff, Marc Lefebvre, Jim Lemon, Pat Peterson, Shared Spaces/

Dans le numéro d'octobre, la *Revue d'histoire urbaine* présente sa 7<sup>e</sup> bibliographie annuelle, organisée à l'origine selon le modèle utilisé par Alan F.J. Artibise et Gilbert A. Stelter dans *Canada's Urban Past: A Bibliography to 1980 and Guide to Canadian Urban Studies* (Vancouver: University of British Columbia Press, 1981).

Cette bibliographie se limite à environ 750 titres et doit, par conséquent, être sélective. Nous avons mis l'accent sur les grandes cités et villes et écarté les articles à portée plus éphémère ou d'histoire locale. Des efforts particuliers ont été faits pour retracer des thèses portant sur l'histoire urbaine canadienne et sur les études urbaines.

Les périodiques canadiens, les bibliographies et les index sont dépouillés systématiquement à la recherche de publications présentant un intérêt pour l'histoire urbaine canadienne. Cependant, nous souhaitons que nos lecteurs continuent de nous transmettre de précieuses informations, notamment sur les mémoires et les thèses, mais aussi sur les documents de travail, les rapports, les débats, les textes d'histoire locale et les articles ou les livres traitant de questions urbaines canadiennes publiés à l'extérieur du Canada. Toutes les références pour la bibliographie de 1988 doivent parvenir à la responsable avant le 31 mai 1988.

Portage de l'espace project staff (McGill), Gil Stelter, Thorold Tronrud and David C. Walker.

In addition, we are grateful to those who responded to enquiries about the exact details of theses submitted to various universities: Dean Chauncy Wood, McMaster; Maryse Courtemanche, Sherbrooke; Barbara Reed, Victoria; N. Charette, Ottawa; Helen Agar, Manitoba; Anne Kverme, Dalhousie; Frances Woodward, UBC Library; Suzy Slavin, McGill Libraries; and the graduate studies offices of Laval, Queen's, Montreal and UQATR.

For the fourth time, computer methods have been used in compiling the bibliography. As well as saving some tedious labour in filing, sorting and cross-referencing the items, the change also permits references to be stored permanently in the computer record and be retrieved for other purposes. We acknowledge the help of Peter McCaskell in setting up and testing procedures.

Bibliographic records compiled for the lists published in this journal between 1984 and 1987 now form a substantial database. Individual or institutional subscribers to the *Urban History Review* may be interested in obtaining machine-readable or hard-copy versions of thematic or regional portions of this database. Examples might include all the citations relating to such topics as architecture, planning, urban conservation, ethnicity, urban culture, urban public policy, municipal government, urban services, or to urban development in a particular province or city. #### **Organization of the Bibliography**

The 1987 Bibliography has General and Regional divisions, each subdivided into sections. In each province, census metropolitan areas and census agglomerations with core cities of at least 50,000 people are all distinguished. Small urban centres are grouped under the heading "Other Urban Centres," with references ordered alphabetically by name of author(s).

Nous tenons à remercier les lecteurs suivants pour leur contribution à la présente bibliographie : Gerald Bloomfield, Fernand Harvey (IQRC), l'équipe de l'INRS-Urbanisation, Marc Lefebvre, Jim Lemon, Pat Peterson, les membres du projet Shared Spaces/Partage de l'espace (McGill), Gil Stelter, Thorold Tronrud et David C. Walker.

Nous tenons également à exprimer notre gratitude aux personnes qui ont répondu à nos demandes concernant les thèses soutenues dans les diverses universités : Dean Chauncy Wood (McMaster), Maryse Courtemanche (Sherbrooke), Barbara Reed (Victoria), N. Charette (Ottawa), Helen Agar (Manitoba), Anne Kverme (Dalhousie), Frances Woodward (Bibliothèque UBC), Suzy Slavin (Bibliothèques McGill) et les bureaux des Etudes avancées des Universités Laval, Queen's Montréal et de l'UQATR.

Pour la quatrième fois, la bibliographie a été compilée grâce à l'informatique. Ce changement permet non seulement de stocker les références de façon permanente dans l'ordinateur, mais aussi de les réutiliser à volonté, tout en facilitant le fastidieux travail de classement. Nous tenons à souligner l'apport de Peter McCaskell qui a établi et vérifié le programme.

Les documents bibliographiques compilés à partir des listes publiées dans cette revue entre 1984 et 1987 constituent désormais une base de données importante. Les abonnés de la *Revue d'histoire urbaine* (individus ou institutions) désireux d'acquérir des portions thématiques ou régionales de ces données, peuvent les obtenir sous deux formes : lisibles sur machine ou copies imprimés sur papier. Il est possible, par exemple, de regrouper toutes les citations relatives à divers sujets tels : l'architecture, l'urbanisme, la conservation, les groupes ethniques, la culture urbaine, les politiques urbaines, les gouvernements municipaux, les services urbains ou le développement urbain dans une province ou dans une ville en particulier. #### **Organisation de la bibliographie**

La bibliographie de 1987 se scinde en deux grandes divisions: Aspects généraux et Régions, elles-mêmes subdivisées en sections. Dans chaque province, les zones métropolitaines de recensement et les villes principales qui comptent au moins 50 000 habitants ont toutes été retenues. Les plus petites agglomérations urbaines sont regroupées sous la rubrique «autres centres urbains» dans l'ordre alphabétique des noms d'auteurs.
